The Ultimate Competitive Advantage

G12's cloud-based unified communication platform instantly upgrades the performance and efficiency of growing businesses through the latest enterprise IP voice services technologies, hosted PBX, and SIP trunking.

The Power of the Cloud

The flexibility of cloud-based unified communication systems enables businesses to connect with their customers, employees, and partners in the most efficient way possible. Advanced mobility tools provide increased productivity, profitability, and reduced TCO - all starting with a smooth transition to G12.

The Best Deployment Process

The G12 deployment process is like no other provider. Starting with a configuration consultation. G12 builds tests, records all components of your new system so it's truly plug and play. Studio recorded greetings are included for each voice mail, auto attendant and call queue.

Start, Integrate, & Customize

Our communication products are easily tailored to address the needs of each business and compliment other products and services most IT, VAR and Interconnect partners are selling. Save customers even more by using their existing PBX or IP Phones. Driving cost efficiencies allows greater budgets for other IT services and systems.

Superior Customer Service

Using the latest in real-time monitoring, reporting, and routing technology, G12 can address and solve problems before your customers even know something went wrong. Remote management allows this to be done from anywhere in the world.

Using state-of-the-art VoIP and communication technologies, G12 provides the flexibility and efficiency needed to reduced costs and increase output for each and every one of your customers

Why G12?

The trusted, 100% channel driven communication partner for businesses everywhere

Offering the latest in cloud-based business communication services, G12 provides partners with the most reliable platform on the market, personal support from quote to close, and industry leading technology and experience. Add some of the highest commissions in the industry and a dedicated support team, and your success is limitless.

An all-inclusive platform that scales with you

G12 provides a one-stop, unified voice platform, call center features, call recording, auto attendants and 40+ other advanced features including in the simple per seat or trunk pricing. We also include all US and Canada calling.

Comprehensive service & support

G12 knows that we're in this together – your problems are our problems. For this reason, we're always available to make sure that every product and service we offer is operating exactly as promised and with 99.999% uptime.

1

Years of SIP leadership, leading technology, and broad SIP trunking services for nearly any IP PBX.

2

Unified communication solutions deployed across networks nationwide.

3

The fastest payments and commissions with the best terms in the business.

More than just amazing products

G12 was built to provide you with the tools you need to create strong, recurring revenue streams. We understand that longterm relationships are built on customer loyalty and a clear understanding of technical advantages, which is why we help you sell from first quotes to closing sales -- providing both training programs, marketing assistance, and support each step of the way.

How It Works

Ready to add cloud communication services to your product portfolio? The G12 partner program enables Agents, Consultants, VARs, IT service providers, and people who know decision makers to offer communication solutions to customers and clients to build a profitable, recurring revenue stream. Even better, the simplicity and flexibility of the G12 platform means that you'll have a fully customized system up and running within just days.

Our Partners

Our partners can either work through the full sales process with our sales engineering, or simply pass on interested parties to our agents and we'll take it from there. If the introduction leads to a sale then we provide you with a commission. No sales or technical knowledge required! IT firms or interconnects can stay engaged as little or as much as they would like. Our relationship starts with your relationship, so we follow your lead.

- We'll show you the way through our co-marketing, lead generation, and other education and promotional programs.
- Partners can earn marketleading commissions from day one, bonuses, and even automatic commission increases.
- Dedicated partner services and channel assistance for all your questions and concerns.
- Discounted services and fast commissions.
